A Support Design chair or stool is a wonderful thing

Each one is hand built and meticulously finished by our team of experienced craftspeople and technicians. We use premium upholstery materials in a vast array of colours. You can even customise our range to your own tastes and colour schemes.

We care about every single chair or stool that leaves our workshop and we think that's the reason our furniture has been making people sit better and feel better for over thirty years. Based on the ingenious SAGA and SUPPORT backrest and seat designs of Bruno Mathsson, we offer a wide range of models, each adapted to address specific user requirements.

SAGA

Ergonomically designed for improved posture and comfort, the seat and back can be adjusted independently. There are no protruding mechanical parts, minimising dust and germs for hygienic environments.

PRISMA

Minimalist design combines premium quality with a comfortable round seat. This stool is perfect for shorter procedures and features a height-adjust mechanism under the seat.

SUPPORT

The bowl-shaped seat and sculpted backrest comfortably supports your back and shoulders, and the free-float functionality ensures intuitive manoeuvrability as the seat follows your every move.

AKKA

A traditional style chair with the benefits of a modern, ergonomic design. Fully adjustable with tilt and height functionality. Comfortable backrest combined with a shallow bowl-shaped seat.

TABURETT

Compact yet comfortable, the TABURETT is a great choice for those who want complete freedom of movement without the need for a backrest. The tilt setting allows you to adjust to your individual needs.

TABURETT Assistant

Specially developed to be used by dental and medical assistants, the armrest provides flexibility and reach thanks to improved support to back, arms and abdominal areas. A high gas spring and foot ring offers easy adjustability, and the deep seat can be tilted to suit your needs.

Correct seating is PERFECT seating

The PERFECT saddle stool facilitates proper posture and is suited for professionals wishing to alleviate fatigue and prevent potential injuries caused during long procedures. The compact design offers improved freedom of movement on restricted surfaces.

The PERFECT saddle stool series includes two models, each with two different sizes. The base is chrome with soft castors designed for hard floors as standard. The gas spring is adapted to the height of the user for an optimal working position. Most saddle stools may be equipped with a foot control, back rest or other accessories.

PERFECT Classic

A soft, comfortable stool with a wide surface area, this seat is particularly well suited for women. Height and tilt levers are positioned under the seat.

PERFECT Advanced

A soft seat with a wider surface and special zones minimising uncomfortable pressure. Designed specifically for the male anatomy. Height and tilt levers are located under the seat.

PERFECT Lite

A small, soft seat with a narrow shape that gives the user a more compact seating position. Height and tilt levers are positioned under the seat.

PERFECT Lite Advanced

Similar to the PERFECT Advanced but with a smaller, more compact seat. Specially designed areas alleviate pressure, making it particularly suitable for men.

PERFECT Lite Hybrid

Similar to the PERFECT Lite with the added free-float feature with lever locking. By following the movement of the user the seat activates several muscles in the lower back.

PERFECT Lite Hybrid Advanced

It's the PERFECT Lite Advanced with the additional free-float functionality that activates muscles in the lower back and abdomen. Specially designed depressions minimise discomfort.

Accessories

Arm rest RELAX 2D

Relieves back and shoulder pressure and allows full 360° movement. Fits SUPPORT models.

SWING arm rest

An arm rest that doubles as a back and abdominal support. Can swivel 360° for complete freedom and versatility.

Foot control

Intuitive height adjustment thanks to a foot-controlled ring. Fits all chair and saddle models.

Arm rest FIXED

A traditional arm rest that can be adjusted for height. Fits the SUPPORT chair.

Mini SWING

A high quality armrest that can swivel around your seat. Fits all saddles and chairs.

Foot ring

Ideal for taller seats where a long cylinder is attached and your feet don't reach the floor comfortably. Suitable for all models.

Saddle stool back rest

Lumbar support that can be adjusted for height and rake. Comes in two sizes, Mini or Maxi and fits all saddle models except Hybrid models.

Dual SWING

A double armed, high quality rest designed to swivel around your seat. Fits all saddles and chairs.

Castors

We stock a wide selection of castors suitable for a variety of different surfaces. The most common are castors for hard floors, which we fit as standard to all of our chairs and saddle stools.
